Cabling, Power & Link Validation	✓ Yes	✓ Yes	✓ Yes	✓ Yes
Switch Configuration & Network Services	✗ No	✗ No	✓ Yes	✓ Yes

**Active AllyCare Pro support required.*

Why NetAlly wins

- AutoTest verifies every layer (cable, power, length, switch config and connectivity) and says definitively whether it's the network or not.
- The workhorse copper tester: broadest feature set in its price class, from cable and power to switch config and connectivity.
- Time to innocence: faster answers than NaviTek NT, MicroScanner, or LinkIQ.
